## PULL ALL TOGETHER FOR THE IDLER'S PARK

OPPORTUNITY IS KNOCKING AT NEWBERRY'S DOOR. THE GOOD WOMEN OF NEWBERRY HAVE DETERMINED TO OPEN THE DOOR.

### PARK FOR NEWBERRY SEEMS NOW ASSURED

#### EVERY ONE ADMITS ITS IMPORTANCE TO TOWN

#### NO HALTING OR BACKING—KICK THE KNOCKERS OUT.

#### Let Newberry Lead the Towns of its Class in This Great Movement.

The Herald and News and its correspondent, The Idler, have been discussing and rediscussing the park for Newberry for some two years or more. Some weeks ago the editor of The Herald and News secured an option on certain lands on either side of Scott's creek, extending from College to Calhoun street.

One or two indifferent efforts have been made to secure the necessary stock to organize the Park association, and generally the movement has met with favorable reception from the people of the community.

Some time ago it was suggested that if the ladies of the several organizations in the city would appoint committees and select a day to make a campaign that the necessary stock could be secured.

Responding to that suggestion, the ladies have come forward nobly and enthusiastically, and committees have been appointed to make the canvass. Wednesday if this week has been chosen as the day. The committees are named elsewhere in this paper.

They will meet at the chamber of commerce on Wednesday morning at 10 o'clock, and will make a systematic canvass of every business man and every other citizen of the community. We are presenting in this issue the situation as fully as we can and we hope that everybody will be ready to subscribe what he feels able and is willing when called upon, and that it

will not be necessary to argue the question with him.

The plan has been published already, and is republished today.

It will not take a large amount from any one person, and, therefore, we have placed the subscription from \$10 up, payable 20 per cent. on organization, and 10 per cent. monthly thereafter until paid up.

This is one proposition on which there should be no division amongst our people, and by co-operation and pulling together, it will take a very small amount from each one.

When we get the park opened, the only question that will trouble the people will be to marvel why they had not done this thing long ago.

It is the intention of those interested in the park to extend it on either side of Scott's creek from College street to the railroad, but it was thought best to undertake what could be accomplished first, and when the work is commenced it will be easy to extend.

#### BUT FANNIE WASN'T DEAD.

#### Mourners Scatter When "Corpse" Breaks Coffin Lid.

Macon, April 13.—Mourners gathered about the casket containing the body of Fannie Warren, a Negro, at Eatonton today, were thrown into panic when Fannie suddenly came back to life. She nearly broke through the solid covering of the coffin and the mourners fled.

An undertaker, who would not run, unscrewed the lid and assisted Fannie out. She is now under the care of a doctor, the funeral having been postponed for an indefinite period.

By the way, what has become of Tom Felder of Atlanta fame? Has Coley run him in his hole?—Lexington Dispatch.

### 180 SHARES SUBSCRIBED TO "THE IDLER'S" PARK

WILL ORGANIZE WHEN FIVE HUNDRED ARE TAKEN.

Maximum of One Thousand—It Will be an Honor and Credit to Have Your Name on List.

The following is the plan of organization:

It is desired that the white citizens of the town of Newberry, S. C., should have the advantage of a Park situated near the centre of the town.

The land necessary for such a park can be obtained at a reasonable price by the purchase of a strip of land on both sides of Scott's creek between Calhoun and College streets.

It is deemed best and advisable to have said park owned and controlled by an organization duly chartered under the laws of the State of South Carolina.

It is proposed to have the capital stock of said corporation \$10,000, divided into one thousand shares of the par value of \$10 each.

The land purchased for said park shall be and remain in the absolute possession and under the management and control of the proposed corporation so long as the said land shall be used for a park, but in case it should cease to be used for that purpose then and in that event the stockholders of the proposed corporation shall each have an interest therein according to the number of shares of stock held at that time.

For the purpose above mentioned we, the undersigned, hereby subscribe the number of shares set opposite our respective names to the capital stock of the proposed corporation, payable per cent. when the commission is issued to the corporators and 10 per cent. thereof every 30 days until paid in full.

#### WILL WITHDRAW CONSTABLES.

What Blease Will Do if Dry Counties Won't Pay.

Columbia, April 13.—Governor Blease announced today that if in the Greenville case the position taken by Supervisor Goodwin is upheld by the courts, he would withdraw constables from the counties having no dispensaries.

In such counties the law provides that the constables shall be paid out of the regular county funds. This the Greenville supervisor refused to do. The governor is charged with the duty of naming constables in the counties to enforce the liquor laws. In dispensary counties the expense is met out of the liquor profits.
